EDUCATION

Renmin University of China **09/2021 – 06/2025**

Bachelor of Arts in Visual Communication Design (GPA: 3.73/4.0)

- Outstanding Student Award (2021 – 2022 Academic Year)
- Undergraduate Academic Excellence Scholarship (2022 – 2023 Academic Year)
- Outstanding Undergraduate Graduation Project and Thesis (2024 – 2025 Academic Year)
  Thesis: *Research on Cinematic Storytelling in Video Games: A Case Study of Red Dead Redemption 2*

PROJECTS

Game Projects

Unseen Witness | Unity | Solo Designer/Developer **03/2026 – 11/2026**

- Designed a four-chapter 2D pixel-art narrative adventure centered on friendship, companionship, and farewell, combining environmental exploration, puzzle solving, and everyday interactions to deliver a complete ~50-minute playthrough.
- Designed a surreal Chapter 2 labyrinth that translated the protagonist's subjective perception into gameplay through shadow figures, pale figures, distorted spaces, and environmental clues.
- Designed a Chapter 3 companion system that connected stamina and physical distance with the narrative theme of care and presence.
- Implemented the game in Unity with C#, developing dialogue and quest systems, schedule and event systems, companion behaviors, area management, level progression, chapter replay, persistent gift selection, and UI interactions to deliver a complete playable experience.
- Conducted playtests with 3 players and iterated on puzzle pacing, labyrinth engagement, and combat difficulty to improve gameplay balance and the overall player experience.

Art & Design Projects

Penitence | Unreal Engine | Environment Artist **03/2026 – 06/2026**

- Designed a dark fantasy environment depicting an ancient mummified corpse imprisoned in a dungeon for a thousand years, using composition, architecture, props, lighting, and environmental storytelling to establish the scene's atmosphere and narrative.
- Developed the environment from concept and blockout through modeling, sculpting, UVs, texturing, materials, lighting, and final rendering using Maya, ZBrush, RizomUV, Substance 3D Painter, Substance 3D Designer, Marmoset Toolbag, and Unreal Engine.
- Selected for the Draft Selection and awarded Rank A in The Rookies 2026 Showcase.

Siege of the Nightwings | Concept Artist **01/2025 – 06/2025**

- Graduation project reimagining Tom and Jerry within a Western sci-fi world invaded by Bat-Spiders, with extensive character, environment, and prop design.
- Used Blender 3D to assist with perspective and scene composition, combining photobashing and hand-painted techniques in Photoshop to develop the final visuals.

Dust of the God | Concept Artist **01/2025 – 03/2025**

- Developed a concept design project inspired by *Nausicaä of the Valley of the Wind*, reinterpreting its character relationships through ancient Egyptian mythology and visual culture.
- Designed characters, environments, props, and narrative elements around a cursed older brother searching for his younger sister, establishing the project's visual direction through Photoshop.

Premium Spicy Rabbit Head Gift Box Packaging Design | Team Project | Designer **04/2024 – 06/2024**

- Collaborated with a four-member team to design premium gift packaging for spicy rabbit heads.
- Conducted preliminary research and developed the packaging concept, contributing to 3D modeling and rendering for the final presentation.

Zen Waterdrop Typeface | Course Project | Designer **04/2022 – 06/2022**

- Designed an original typeface combining typography with waterdrop-inspired forms to express stillness and tranquility, establishing a cohesive visual system across the letterforms.

SKILLS

- **Engines & Programming:** Unity · Unreal Engine 5 · C#
- **Art Tools:** Maya · ZBrush · Blender · Substance 3D Painter · Substance 3D Designer · RizomUV · Marmoset Toolbag · Photoshop
- **Languages:** Chinese (Native) · English (TOEFL iBT 108)
- **Art:** Concept Design · Visual Development · 2D/3D Art · UI Design
